

Door and Panel on Tub. Cleartek™ (Low-Iron) Glass Enclosure. Brushed Stainless Steel Finish.

ACERO series
frameless shower enclosures

Acero Series Frameless
Shower Enclosures

The Acero delivers a minimal, geometric design aesthetic with well-appointed features including a frameless door, stainless steel hardware and Cleartek™ (low-iron) glass that is protected with EnduroShield glass coating. With built-in adjustability to fit almost any wall condition and a range of glass sizes available, the Acero will complement your bath and stall enclosure opening. A truly frameless, sliding door is supported by a rectangular stainless steel rail eliminating the typical header.

Door and Panel on Stall. Cleartek™ (Low-Iron) Glass Enclosure. Polished Stainless Steel Finish.
